## **SOUTHWEST AIRMOTIVE EXPANDS FACILITY BASE**

TUCSON, AZ, SEPTEMBER 22, 2009: Dwight Cox, President of Southwest Airmotive Corporation announced that his company has agreed in principle to re-position at least part of his company to a new facility at nearby Eloy Municipal Airport.

"We've had a solid year in 2009," says Cox who founded the company five years ago, "and we have an opportunity to move the bulk of the operation to a facility that gives us fly-in capabilities." Cox expects to make the move in the first quarter of 2010.

Southwest Airmotive Corporation is a Federal Aviation Administration (FAA) approved Repair Station [Air Agency Certificate Number QOWR001Y], in its fifth year of operation. Southwest performs repair and overhaul on Pratt & Whitney PT6A Series aircraft engines. These engines are used on aircraft with
